

Average Annual
Deer-Vehicle
Crashes: 7,777

MANITOBA

Top Deer-Vehicle Crash Areas 2014-2018 (Based on the Number of Crashes per Municipality)

Source: Collision data (calendar year) from Manitoba Public Insurance.

Notes: Collision location is self-reported by Manitoba Public Insurance claimants and is based on the nearest city or town. Crashes may occur within, or outside of town limits.

The collision density is based on the frequency of deer-vehicle crashes for the reported locations

In Manitoba, deer-vehicle crashes have been reported as far north as Lac Brochet, however the density of these types of crashes is low in the area north of Swan River.

For top deer-vehicle crashes within the City of Winnipeg, please see the companion map "City of Winnipeg: Top Deer-Vehicle Crash Areas 2014-2018."
