

DRIVER TRAINING VEHICLE PERMIT REQUIRMENTS

Driver Training Schools must submit the application for a Training Vehicle permit and should become familiar with Part 4 sections 10, 11, and 12 of the Driver Training regulation. Training in a student's private vehicle is not allowed unless a permit is issued in accordance with section 13.

Once you have prepared your application, send it to the Permit Unit. We will contact you within five working days to arrange an appointment. At the appointment a representative will check the functionality of the auxiliary brake and the placement of the rear-view mirror on class 5 vehicles. The signage on all training vehicles will be checked for wording and size and colour of letters and background.
